April Golf News

From the EBCC Course Maintenance Team

As the snow leaves and the more desirable golfing weather arrives, we are very excited to begin the upcoming capital course improvements for 2022.

As the State of the Club Announcement mentioned, our sand traps will finally see the needed attention that will help improve their look on the course and playability.

Our goal is to start the reshaping of each trap complex in late August of 2022, with a projected completion date of June-July of 2023, weather permitting. Our outside contractors will begin with Hole One and proceed forward through Hole Eighteen. During the redesign, ground liner installation, and sodding, we will look to reshape the overall square footage of our bunkers, resulting in more manageable dimensions.

As we move closer to the scheduled start date, our staff will send out weekly communications to all Members to provide a scope of work and any possible course notifications that may or may not influence play.

We look forward to the substantial improvements that will greatly improve our market position, curb appeal, and player enjoyment.

Thank you,
EBCC Maintenance Team

April Golf News

From the Golf Shop

The 2022 golf season is among us, and it couldn't be a more exciting time to be a Member of Eagle Brook! We look forward to another great season of golf, league play, first-class events and comradery.

There have been some great additions with some of our new Members and I think they will be great fits for our Club. Please make sure to welcome these new Members of our community as they get started at Eagle Brook.
It really is the people that make EBCC a great place!

As we begin the season, please remember our course care basics. This includes filling divots, repairing ball marks and following our cart traffic policies. These small actions will lead to tremendous course conditions for all of us to enjoy.

2022 will mark the launch of our new grass tee on the driving range – and it is **extremely important** that we get this turf started on the right path! Please make sure that we utilize the grass tee in the proper fashion, as illustrated in the picture below.

Proper usage will lead to a sustainable, flat and remarkable practice area. As a reminder, the artificial turf tee accepts tees for hitting drivers.
Please hit off the artificial turf whenever possible.

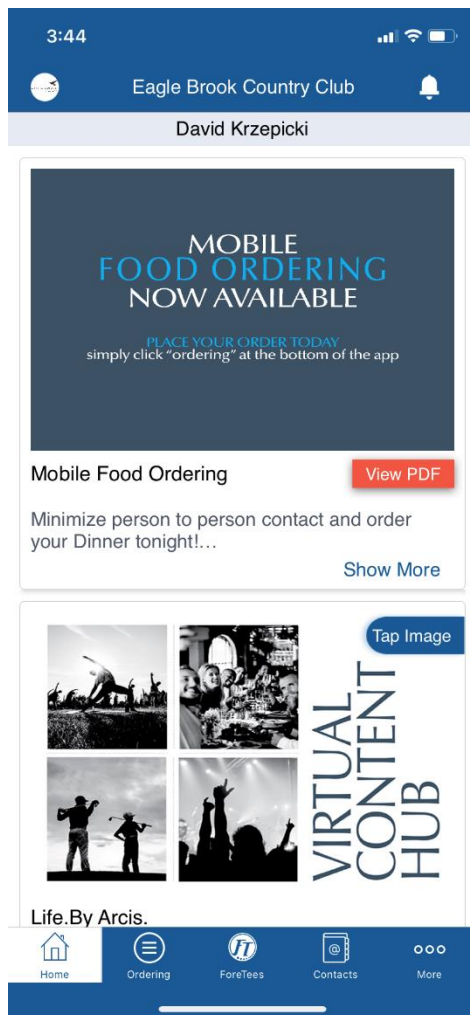

Best wishes for a great season!

David Krzepicki, PGA, Head Golf Professional
