August Golf

Dear Members,

The time has come for our bunker renovation! We can all agree that our sand traps are in need of a face lift to match current conditions from consistent playability to visual enhancements. In the beginning of the 2022 season, rendering photos were posted by the fitness center to bring excitement to the club and inform the membership of our shared vision. Many discussions have taken place to formulate the final plan upon which we are about to embark. We are pleased to announce we are heading into the first of several phases of this renovation and look forward to sharing our progress as we go.

Not only is our goal to improve the playability of the course but also to create a different perspective on how to approach each golf hole. This will be a massive undertaking but one that is welcomed. To share these updates, Eagle Brook's management team will provide up to date happenings during the next few months by push notifications that will be sent through Fore Tees. Also, our team is excited to introduce a QR code that will show photos of each phase as we journey through this transformation. For your convenience, this QR code will be available for you to download and will be posted throughout the clubhouse and on each cart plaque. Once the QR code is downloaded, you will be able to join the excitement and follow along with us.

August Golf

Our first of many sand deliveries will start to arrive the second week of August. The west end of the clubhouse parking lot will be our staging area for these materials. We apologize for any inconvenience this may bring to you and your guests and we will do our best to complete this project in an efficient and timely manner.

Below please find some photos of a similar project taken at a different course back in May. Photo #1 shows the new trap design that will be similar to our final product here at Eagle Brook. Photo #2 shows the liner installed which will allow water to properly drain and prevent wash outs during spring and fall months. Photo #3 shows the finished trap with sand and sod. Hopefully this will give you a better visual of what to expect. As you can see, this isn't just a project to replace the current sand with a new layer. Our team will be changing the look and feel of the course in a positive and challenging way.

We look forward to the next few months and can't wait to share our progress along the way!

Thank you,

Eagle Brook Maintenance Team
