Offering world-renowned French cuisine, Everest's menu features the finest seasonal fare and a superb wine collection.

From its location on the 40th floor of the Chicago Stock Exchange, Everest offers breathtaking views of Chicago on par with the exquisite wine and cuisine offered by Chef Joho.

Bronze sculptures created by acclaimed Swiss artist Ivo Soldini adorn each table, while paintings by Chicago artist Adam Siegel line the walls overlooking the western view of the city and sculptures by Virginio Ferrari grace the dining room.

Everest's selection of 1,600 wines showcase the wines of Alsace due to Chef Joho's Alsace heritage and his personal belief that in no other region of France are food and wine so tightly intertwined as in Alsace. With over 350 selections from the region, the Everest wine list has received international acclaim for having one of the greatest offerings of Alsace wines in the world.

Refer a new member to join Eagle Brook Country Club and receive a complimentary month of dues

You will be entered to win  
Dinner for 2 at the exclusive Everest restaurant in Chicago  
- Includes Round Trip Transportation and Hotel

All referrals must be submitted in order for you to receive your one month free dues.

# From the Golf Shop

January 2020

Happy New Year Everyone.

We hope you had a wonderful Christmas and New Year with family and friends and are ready for a **GREAT 2020** golf season. The Golf Committee is currently working to finalize details for golf events in 2020, and should have the completed golf guide finalized by February 1<sup>st</sup>. We will send an email when the 2020 Golf Guide is completed.

We look forward to an early spring, for once,  
and for a great 2020 Season.

## World Handicap System

The World Handicap System (WHS) is ready to be launched in January 2020 and will provide golfers with a unified and more inclusive handicapping system for the first time.

Though many countries are planning to adopt the new system in January, the system will go live in other parts of the world throughout the year to accommodate different implementation plans and variations in the golf calendar.

Developed by the USGA and The R&A in close coordination with existing handicapping authorities, the WHS will provide all golfers with a consistent measure of playing ability, with handicaps calculated in the same way wherever they are in the world.

A key objective of the initiative was to develop a modern system, enabling as many golfers as possible to obtain and maintain a Handicap Index. Golfers will be able to transport their Handicap Index globally and compete or play a casual round with players from other regions on a fair basis. It will also indicate the score a golfer is reasonably capable of achieving the next time they go out to play.

Please click the below link to read about all of the WHS System.

January 2020

## Winterize your golf game

With the holidays and the cold weather, it's hard to find time to get out and play or practice. That doesn't mean your golf game has to suffer, though. A few minutes a day can help you transition your game from one season to the next. You might even find some improvement over the winter if you work on the following parts of your game.

There are many advantages for working on your game during the off-season. Golfers will work on swing fundamentals rather than watching the result of the golf ball. Three individual hitting stations, along with artificial putting greens will help to keep you sharp in the off season. Stop by and check out our indoor golf practice area located in the Cart Barn.

For those of you needing a little more help on your game, we will be offering Private instruction. Taking swing changes to the golf course can be a very difficult thing to deal with. Golfers will have enough time to get comfortable with any adjustments before playing next season. You will be able to easily monitor adjustments and the resulting improvements (before and after) with the use of a video camera, computer golf swing software, swing-aids, and mirrors.

For more information about lessons during the off-season, call or email me.

January 2020

## Putting:

Everyone can find a way to bring the putter inside and roll some putts along the carpet or other suitable surface. Buy a cheap putting mat and lay it on top of the hardwood or cement floor. You may not be able to work on your distance control, but you might be the master of the 3-foot putt when next season rolls around.

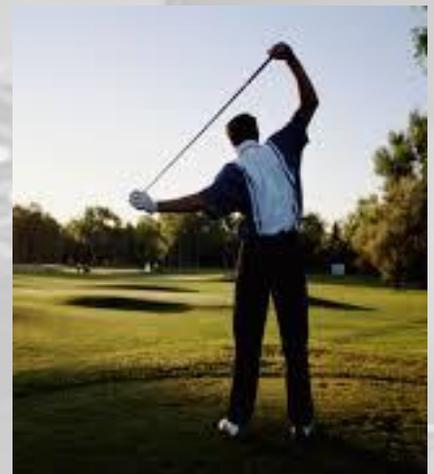

## Setup:

One of the reasons your golf game is rusty when you return after a lengthy absence is that you have to relearn some of the basic fundamentals; distance from the golf ball, grip, posture, ball position. If you grab a golf club and repeat your routine of approaching a golf shot, you could really hit the ground running next season.

## Flexibility:

Use the off-season to improve your flexibility. Would it be nice to add ten yards to your tee shot without hitting any balls over the winter? Dumb question. Sit on the floor with your legs crossed, and stretch your upper body to the left as far as you can. Hold the position for ten seconds. Then go to the right and hold. Do ten repetitions for each side and do it as many days per week as you can. Put all of the above tips into practice and you might have the most productive golfing winter of your life!
